IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Harrah Did Not Meet Monitoring Requirements

Our water system violated drinking water requirements pertaining to the contaminant(s) of concern listed below. Although none of these violations are considered emergencies, as our customers, you have a right to know what happened and what we are doing, or have done, to correct these violations. Customers are not at risk and there is no reason to suspect any potential adverse health effects. Alternative water supplies are not needed.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not your drinking water meets health standards. During the following monitoring periods, we did not monitor or test for the following contaminants, and therefore cannot be sure of the quality of your drinking water during that time:

Type of Sample(s)	Monitoring Period(s)
CHLORINE	10/1/2022 To 10/31/2022
TOTAL COLIFORM	10/1/2022 To 10/31/2022

What should I do? Remember To Take monthly sample.

What happened? What is being done? forgot to take monthly samples. Starting back taking the samples. All sample before October were good AND After October

We anticipate resolving the problem by this date: STARTED taking sample in November.

For more information, please contact Jerry Chipman at 405-454-2760
Name Phone Number
or P.O. Box 636 HARRAH OK 73045
Address

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.
