CITY OF HARRAH ILLICIT DISCHARGE COMPLAINT FORM

Date:	Time:
Contact Name:	
Contact Phone Number:	
Contact Email Address:	
Location:	
What Type of Discharge are you reporting?	

Illicit Discharge is defined at 40 CFR §122.26(b)(2) and refers to any discharge to a municipal separate storm sewer that is not entirely composed of storm water, except discharges authorized under an OPDES or NPDES permit (other than the OPDES permit for discharges from the MS4) and discharges resulting from firefighting activities.

Prohibited discharges. No person shall discharge to a Municipal Separate Storm Sewer System (MS4) conveyance, water body, directly or indirectly, any substance other than storm water or an exempted discharge. Any person discharging storm water shall effectively prevent pollutants from also being discharged with the storm water, except as permitted in § [17-509](#).

If you see anyone improperly disposing of these Contaminants, please call Harrah City Hall at 405-454-2951.

SECTION 17-509

1. It is a violation for any person to improperly dispose of any contaminant into the MS4. Contaminants include, but are not limited to the following;
 - a. Trash or debris;
 - b. Petroleum products, including but not limited to oil, gasoline, grease, fuel oil or hydraulic fluids;
 - c. Antifreeze and other automotive products;
 - d. Metals in either particulate or dissolved form;
 - e. Flammable or explosive materials;
 - f. Batteries;
 - g. Paints, stains, resins, lacquers, or varnishes;
 - h. Pesticides, herbicides, or fertilizers;
 - i. Soaps, detergents, or wastewater containing the like;
 - j. Heated water or steam cleaning wastes;
 - k. Animal waste or animal carcasses;
 - l. Leaking sanitary sewers and connections;
 - m. Recreational vehicle waste;
 - n. Medical wastes;
 - o. Collected or loose lawn clippings, leaves or branches;
 - p. Silt, sediment, or gravel;
 - q. Washing of fresh concrete residue;
 - r. Junk motor vehicles;
 - s. Wastewater from the cleaning of fueling stations, auto repair garages or other types of auto repair facilities;
 - t. Wastewater from mobile auto washing, steam cleaning, mobile carpet cleaning, and other mobile commercial and industrial operations;
 - u. Discharge from the washing or rinsing of restaurant mats, roof vents, grease traps, garbage bins or cans in such a manner that causes non-storm water to enter the storm drain system;

- v. Any hazardous material or waste not listed above;
 - w. Any spilled pollutants, unless it can be demonstrated that failure to allow the discharge will result in a great peril or hazard to the life, health, welfare, or safety of the public; and
 - x. Any material that is disposed of in a manner to cause pollutants to be discharged.
2. It is a violation for any person to place, store or locate any material in a manner that causes pollutants to be unreasonably transported by usual atmospheric conditions into the city's MS4.
 3. Storage or stockpiling of hazardous or toxic material within any drainage way, or in its associated floodway or floodplain, is strictly prohibited. Storage or stockpiling of hazardous or toxic material on active construction sites must include adequate protection and/or containment so as to prevent any materials from entering any temporary or permanent storm water conveyance or drainage way. Pool water must be de-chlorinated before being discharged onto the ground or can be drained into the sanitary sewer.
 4. Pool water must be de-chlorinated before being discharged onto the ground or can be drained into the sanitary sewer.
 5. Spills that have the potential to enter or have entered the city's MS4 shall be contained, and remediation activity will be implemented which will consist of deploying absorbents, chemical neutralizers and/or booms and water skimmers to contain, neutralize and/or remove the chemicals. Remediation activities shall be the responsibility of the offending party.
